News Clipped From Our Exchanges

Two men met their death Tuesday morning in the Voich mine. This property is largely owned by Stockton people and is situated about four miles from Angels Camp in this county. The victims were P. Cleck and Charles Vlautin both single men. They had been engaged in opening up a new level 700 feet under the surface, and had been blasting. They returned to the level too soon after one large blast had been exploded. Time must be allowed for the deadly gas generated by the explosive to escape, in order that fresh air may get in, but in their hurry to continue the work they descended to the level before sufficient time had elapsed, and were asphyxiated. Cleck, who was about 19 years of age, was a relative of Supt. Voich of the mine. Vlautin was 25 years old.—Chronicle.

Mr. and Mrs. Otto Dolling have announced to their friends the marriage of their niece Miss Lena E. Dolling to Edward R. Scott, which took place on the 20th inst. at the Trinity Episcopal church in San Francisco. Miss Lena Dolling has been one of the most popular of the social set at Angels, where most of her life has been spent, and is a young lady of high character and fine accomplishments. Her friends are only limited by her acquaintance. Mr. Scott is in the employ of the Sierra railroad, and the couple will make their future home at Jamestown.—Prospect.

POSITIVELY APPENDICITIS
Four San Francisco Doctors Stated Jose Morales had Appendicitis and Must be Operated Upon.—Dr. T. W. King Cures the Case Safely, and Quickly Without Operating.

I had been suffering with kidney trouble for a year and about three months ago it became complicated with stomach ailment to such an extent that I had to stop my work at the Keystone mine, Amador City. I treated with two doctors but grew worse, until they stated I had at last a bad case of appendicitis. I then went to San Francisco where four prominent physicians stated I unquestionably had appendicitis and must be operated on. Then I thought of Dr. T. W. King, the noted Chinese physician, and returned to Sacramento August 27th. Dr. King told me at once I not only had an attack of appendicitis, but my stomach and kidneys were diseased. His treatment gave me prompt relief, in less than ten days I was cured of the appendicitis entirely without any operation. My stomach and kidneys improved from the first until now I am perfectly well in every way and will return to Amador City the end of this week. This may seem like a miracle, but I am right here in Sacramento ready to vouch for its truth. Those suffering from ill health in any form ought to consult Dr. King. He is a remarkable physician, his treatment is perfect and his fees most reasonable. Appendicitis in his hands has lost all its terrors. See him at No. 725 J street, and ask him about my case.

JOSE MORALES.

THEY CLEANED HOUSE

A UNIQUE PARTY WHICH FURNISHED MUCH AMUSEMENT.
It Was a Prearranged Affair by an Ingenious Hostess and Was Decidedly Enjoyable for All.

"We shall clean house on Tuesday evening. We need your help. Please come dressed for work." This was the surprising invitation sent out to a number of her friends by a young hostess for a May entertainment that proved to be such a jolly one that it is worth trying by others, says the New York Evening Telegram. Fully half the fun was made by the costumes in which the guests appeared. All of the women were in short skirts, some washable and others of wool. Nearly every sort of kitchen apron was to be seen. A voluminous artist's frock enveloped one girl. On her head she wore a serviceable sweeping cap of red and white plaid gingham, and she carried in her hand a feather duster, which she had brought with her. A bunch of house cleaning "rags" were tucked in the belt of another worker. Among the men "jumper" suits predominated, although there were a number of comfortable bicycle costumes and one gaudy sweater. Several even thought it appropriate to wear linen dusters, the sleeves rolled above the elbow, and these looked like enterprising grocery clerks.

If ever any house seemed to need attention it was that one on that particular evening. Apparently the litter of a year's sewing lay on the floor and cobwebs hung from pictures, chandeliers and every possible projection. To make the place neat would not have been the task of a moment at best. As it was, when this was attempted, every innocent snipping of cloth was found to have been strung on a fine thread and to be but one of a long chain of them. Every raveling turned out to be the end of a spool of thread and every cobweb, all of which were of string, proved itself to be but the end of yards and yards unwound from a ball. Pieces of tape there were, which led to the original rolls, but neither these nor any other end drew directly to its source, but each was tangled or even knotted with the rest of the litter.

The work of cleaning up consisted of carefully disentangling every end and winding it up and of gathering up the chains of snipping and putting them in a waste paper basket. A little colored paper marker was found at the source of every end, and as these were reached they were collected and put into little bags, which the hostess had supplied to every one. The guest who found the most markers was rewarded for such industry by the gift of a "Busy Bee." It was a toy insect, which buzzed when wound up. A more elaborate present might be given if desired.

A "picked up" supper, consisting of cold foods, except coffee, was served to the cleaners at the close of their labors. It was a real supper of pressed chicken, thin slices of boiled ham and a potato, nuts and crisp salad. The dessert was fruit jelly and whipped cream. For table decorations was a May basket centerpiece with tiny broom souvenirs for the women and little wooden pails for the men.

During the evening some of the guests, like witches, found time to "brush the cobwebs from the moon." Through a big half moon of bright yellow paper long ends of yarn had been threaded with a needle. The moon was hung from the chandelier in one of the rooms and those who "brushed" it entered into a contest to pull out the most cobwebs in three minutes, using the left hand only and drawing out one at a time. The prize was a small pot of "green cheese," which the moon is made of, as every one knows.

The two prizes presented during the evening were given at the table and the pleasure of opening and displaying them was increased by the award of a diploma with the bee. It was a mock certificate, enrolling the winner a worthy member of the Janitors' association. His cleaning powers and personal qualities were described at length most comically, these particulars having been added at the last moment by the hostess.

Higher the Waves the Fewer.

As the liner cleared the heads and the heavy swell of the open Atlantic became noticeable, dinner was served. The 26 places at the captain's table were filled, and as the soup appeared the captain addressed his table companions. "I trust that all 25 of you will have a pleasant trip," he said, "and that this little assemblage of 24 will reach port much benefited by the voyage. I look upon those 22 smiling faces as a father upon his family, for I am responsible for the lives of this group of 19. I hope all 14 of you will join me later in drinking to a merry trip. I believe we seven fellow passengers are admirably suited to each other, and I applaud the judgment which chose from the passenger list these three persons for my table. You and I, my dear sir, are—"

The captain chuckled. "Here, steward, bring on my fish and clear away these dishes." — Chicago Journal.

Coat, Vest, Pants.
"He hasn't a coat to his back."
"Why not?"
"Because he's vested interests control everything."
"No wonder that the poor man pants for a more equal distribution of wealth." —Louisville Courier-Journal.

The Chance Needed.
If some people could just get a chance it wouldn't take them long to show the world what they couldn't do. —Puck.

Bad Indeed.

Losing flesh is indeed a bad sign. Take Scott's Emulsion for it. For weak indigestion, for defective nourishment, for consumption, take Scott's Emulsion. It restores flesh because it strikes to the cause of the loss.

Municipal Corporations.

A Timely Treatise on the Subject —The Danger of Undue Expansion

General Remarks.
There are 136 incorporated cities in California. These cities have a population varying from 340,000 to less than 500. There are now about forty with a population of less than 1000. They are divided into six classes, according to population. All towns with a population of less than 3000 belong to the sixth class. There are 84 cities of this class in the state. At the present time the only method for a community to become an incorporated town is to follow the method prescribed by the state of 1883, known as the Municipal Incorporation Act.

Method of Incorporating.
A petition must be presented to the board of supervisors by the electors of a given territory to the number of at least fifty, showing (1) that the territory sought to be incorporated is not already incorporated, (2) That the territory described contains over 500 inhabitants, and (3) a description of the boundaries of the proposed incorporation, and then conclude with a prayer that the same be incorporated. This petition, together with a notice as to when this petition will be presented to the county supervisors, must be published two weeks (three insertions) in a weekly newspaper prior to the time of its presentation to the board of supervisors. Then the board of supervisors finally fix the boundaries, determine the number of inhabitants and call an election for the proposed municipality to determine the question of incorporation.

The requirements of the statutes must be followed with the strictest fidelity. The proper publication of the notice is a very essential thing, as it serves to give the board of supervisors jurisdiction of the subject-matter. To much care cannot be exercised in this matter, for it would be a serious thing to discover after a town had been exercising municipal functions for several years that its primary incorporation was of questionable validity. Several towns have found themselves in this predicament.

In preparing the petition the determination of the territory to be embraced in the proposed town frequently requires the exercise of a nice judgment and many things must be taken into consideration therewith. The safe rule to follow is: Do not include more territory than is absolutely essential, and yet the future growth of the town must to some extent be foreseen. We must consider: Is the town growing rapidly? If so, in what direction will it grow? We do not want populous suburbs just outside of the corporate limits. They are frequently unsanitary and a menace to the public health. So any territory that is likely to be soon populated should be included. All territory not likely to be thus populated should be excluded. Also exclude as much public highway as possible and lay out the city so that few bridges need be maintained. The town should be so situated that one general sewerage or drainage district may be formed to include the entire corporate limits. Include as little agricultural land and agriculturists as possible. Those whose occupation is agricultural have little need for a municipal organization. They do not need sewers, or fire or police protection, and they are forced to come in and they will prove a source of annoyance and friction in the future administration of the town. They will have to pay taxes, receive no benefit and will be continually objecting to all public improvements, kick at all progress and become a general hindrance. Some time in the future you may wish to issue bonds for sewers, electric light and water works, and every man who lives out of the reach of these utilities will be sure to vote against bonds, and as it requires a two-thirds vote to accomplish these, the fellows living on the outskirts of town are frequently determining factors in such worthy projects.

Benefits of Incorporation.
The benefits resulting from a municipal corporation are those that flow from the exercise of certain functions that cannot be adequately exercised in any other way. These functions may be divided as follows:
1. Those relating to the public convenience.
2. Those relating to the public safety.
3. Industrial functions.
4. Social functions.

Functions of Convenience.
These relate to the care, maintenance and use of public streets, which include sidewalks, bridges and squares. Streets must be constructed, repaired and sprinkled. They should be drained, and curbs, gutters and culverts maintained. The convenience of the people requires also that there should be sidewalks for pedestrians and nowadays we are considering that bicycle paths are also a most necessary. Moreover, we also feel a certain convenience and pleasure in having the streets beautified by the presence of trees, shrubs and flowers. The City Beautiful is becoming to be recognized as the coming city. It is the beautiful cities that attract strangers and show the most rapid growth.

While the county has power to establish and maintain highways, it really confines its duty to the maintenance of a mere passage way for teams. A strip twenty or thirty feet wide is all that is deemed necessary for that purpose, and if a locality becomes thickly populated, and requires a wider highway, a better highway and fitted to accommodate a heavy traffic, finds sidewalks essential and some ornamentation desirable, it must look to some form of co-operative effort on the part of the community affected. The county machinery becomes inadequate. For a time the people will bear the expense of the additional undertaking by private subscriptions and until it is seen that this expense falls on the few who always contribute cheerfully and liberally, while others equally benefited contribute nothing. This inequality of sacrifice makes manifest the necessity for a municipal corporation. So if a community desires better streets, sidewalks, shade trees, etc. at an equitable distribution of cost, it must organize into a municipal corporation.

Functions of Public Safety.
Under this head may be considered: Fire protection, police protection and health protection.
One of the first needs of an urban community is protection against fire. This the county cannot give. Without it insurance rates will be exorbitant. In unincorporated towns there is almost invariably an inadequate fire protection and consequently high insurance rates. The fire departments, such as it is, is maintained at the expense of the few who happen to be on hand when the collection is taken up, and here again comes the inequality of sacrifice for the public good.
Furthermore, there is always an absence of regulations to operate to prevent fires. Fire trap buildings are put up in dangerous localities, rubbish accumulates in back alleys and everything invites an early and damaging conflagration. The municipal corporation alone has authority to adopt preventative measures, and these measures are more valuable than a fire department.
The more populous a community the greater necessity is there for police protection. Acts which, in a rural community affect none but the doer, in a populous community become highly obnoxious to neighbors. Such acts must be legislated against and punished, and here again the municipality becomes a necessity. The public health is of grave concern and it is the urban community that is most susceptible to all forms of disease. It is here that epidemics ravage and take away our loved ones.
It is in the cities that disease breeds and starts out to deal death to the living, the strong and the beautiful.

Modern science is devoting itself to the prevention of disease as much as it is to its cure.
Cleanliness is the secret of health. The law has been written "cities must keep clean." No town, no matter how small, can violate this law and escape with impunity. It is recognized that the various fevers are traceable to filth, and that epidemics of this disease can be avoided simply by keeping clean.
Therefore we must have pure water, uncontaminated by filth, pure air, unpolluted by noxious gases, and to have pure water and pure air we must not permit filth to accumulate. Therefore we must have sewers and such health ordinances as will maintain the health of the community. The rubbish of the street, and the household waste, must be removed so that it will not be a source of danger. The municipal corporation alone has the only ample authority to protect the public health.

Industrial Functions.
Cities are rapidly taking upon them selves new functions of an industrial nature. They are operating water works, light plants, street railways, etc. A book could be written on this subject alone and the advantages of municipal operation portrayed. A few words here must suffice. It is generally conceded and statistics show, that municipal water works result in purer water, better supply, better fire protection, cheaper rates, lower cost.
The same can be said of the municipal lighting works. Over 40 cities in this state operate water works and a dozen operate water lighting works.
Social Functions.
For the social betterment of a community cities can maintain parks and playgrounds, gymnasiums and baths, libraries, museums and art galleries, provide concerts and other forms of entertainment and recreation. While these things, are not essential, they serve a high and noble purpose and the communities who wish to reach a high plane of social comfort must have them and secure them through the efforts of the municipality. The public library is a very popular and useful institution, and no city is too small to maintain one. There are about fifty municipal libraries in California and the number is constantly increasing. In one instance the main incentive for the incorporation of a town was the desire of its people to have a public library.

What the Advantage Cost.
Having enumerated the various benefits that a community may obtain, the next important thing to be considered is the cost of the same. It is a rule of human action that we cannot satisfy our desires without a sacrifice. We must pay the price for all that we need for our physical and social enjoyment. A municipality can supply certain conveniences, necessities and comforts, and a community can, by paying the price, take little or all that it can supply. It is

like a store with its stock of merchandise, wherein a person may take one article or the entire stock, if he is willing to pay for it. Some communities require little, others desire much. So tax rates vary from a nominal sum to an amount that some taxpayers may consider extravagance. The instant a municipality corporation is organized the territory is withdrawn from the jurisdiction of the county authorities. The care of the highways passes from the county to the municipality, and likewise the revenue for the care of roads goes to the municipal treasury. No road tax is levied on the property in incorporated towns. Also, under a recent decision, the city has the right to impose licenses within its limits. With the revenue from these two sources some cities carry on the local government. It rests largely with the people what the rate of taxes shall be. For general purposes in sixth class cities it cannot exceed seventy-five cents on the \$100. This is certainly not an extravagant rate. In many of the smaller cities a rate of fifty cents is levied; in a few a smaller rate yet.

So in deciding upon the question of incorporation the matter is not one of increasing the tax rate, but it is of determining whether or not all of the advantages of municipal co-operation will be on tap, whether we wish to pay the price or not. In other words, we are to lay in a stock of sewers, fire apparatus, water works, lighting plants, parks, libraries, health and police regulations, to be delivered to us whenever we pay the cost thereof. We may not wish many of these for years, but they are handy to have at hand.

The official salaries at first should be small. Five hundred dollars per annum ought to cover all official salaries in a town of 3,000 inhabitants. I know of a town of nearly 4000, in habitants where the clerk is paid but \$200 per year, the attorney \$100 per year, the marshal and the tax collector 2 per cent of moneys collected, and the treasurer a small commission.

In conclusion, I may state that the city once incorporated rarely disincorporates. I do not know of one in the state where it is desired to abandon the local government at the present time. So this may be considered as proving the satisfactory character of municipal corporations. New towns are being incorporated at the rate of three or four annually.—California Municipalities.

Numerous and Worthless.

Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co. of Chicago discovered some years ago how to make a salve from Witch Hazel that is a specific for Piles. For blind, bleeding, itching and protruding Piles, eczema, cuts, burns, bruises and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's—the genuine. Sold at the City Pharmacy.

Mail Contracts.

Mail contracts are advertised to be let by the post office department for the term of four years from the 1st of July next. Bids will be received up to December next. The contracts for Amador county embrace the following:

From Jackson to Mokelumne Hill, San Andreas and Angels, six times a week to San Andreas, and 7 times for other part of route; bond required \$2000; present contract price \$25.

From Jackson to Electra, 8 miles, six times a week; bond \$1200, present contract \$520.

Jackson to Pine Grove and Volcano, 12 miles, 6 times a week, bond \$1500, present price \$700.

Jane to Kanlett and Martells, Jackson and Sutter Creek, 16 miles, 7 times a week, bond \$1200; present contract \$305.

Jackson to Sutter Creek, Amador City, Drytown and Plymouth, 11½ miles; bond \$900; present price \$298.

The contractors must deliver mail at wayside boxes without extra charge.

The plasterer on the Taylor residence left Tuesday morning, leaving his sub contract half completed. A. H. Kuhlman sent to Stockton for another man to complete the work.

The Webb store building has been reroofed the past week with the Parafine Paint Co's patent felt roofing, which has given good satisfaction wherever tried in the county. The old tin roof was rotted clean through in the gutters, although on less than eight years. It never was water tight since the first winter.

Always Successful.
When indigestion becomes chronic it is dangerous. Kodol Dyspepsia Cure will cure indigestion and all troubles resulting therefrom, thus preventing Catarrh of the Stomach. Dr. Newbrough, of League, W. Va., says: "To those suffering from indigestion or sour stomach I would say there is no better remedy than Kodol Dyspepsia Cure. I have prescribed it for a number of my patients with good success." Kodol Dyspepsia Cure digests what you eat and makes the stomach sweet. Sold at the City Pharmacy.

The Lone High School.

The managers of the lone high school, in conformity with the law, sent the following communication to the board of supervisors at their last meeting, as the basis for fixing the tax levy for the support of the school in that district:

Lone, Cal., Aug 5, 1905.
To the Hon. Board of Supervisors, county of Amador, state of Cal.

We, the undersigned, executive board of trustees of the lone Union High School according to subdivision 14 of section 1670 of the school law of the state of California, do hereby submit the following as the account of money required for the current expense of the lone Union High School district for the school year ending June 30, 1906.

We respectfully ask you in accordance with subdivision 15 of section 1670 of the school law of the state of California, to levy a tax upon the property contained in the lone Union High School district in sufficient amount to give us the required sum.

Witness our hand and seal this 5th day of Aug. 1905.

Fayette Mace, Geo. Winter, E. W. Perkins, Ex. Board.

Attest: a true copy of original resolution adopted on above date. E. W. Perkins, Secretary.

Salaries-teachers	\$2300 00
Salaries-janitor	100 00
Wood and water	25 00
Expenses, laboratory	150 00
Expenses, library	100 00
Expenses furniture and incidentals	150 00
2nd installment on purchase of building	936 25
Total	\$3761 25

The amount of money reported as needed for carrying on the school for the ensuing year, necessitated a tax rate of 47 cents on the \$100, and this was the amount asked for. W. M. Amick, the supervisor of the district, was strongly opposed to such a heavy rate, and wanted it cut down to 40 cents. He was outvoted, however, and the onerous tax was imposed. It must be explained that a considerable amount of money raised by this high rate will be devoted toward paying off, or reducing, the indebtedness on the school building.

A Laxative Cough Syrup.

"A cold or cough nearly always produces constipation—the water all runs to the eyes, nose and throat instead of passing out of the system through the liver and kidneys. For the want of moisture the bowels become dry and hard." Kennedy's Laxative Honey and Tar is the original Laxative Cough Syrup. It meets and corrects the above conditions, by acting as a pleasant cathartic on the bowels—expels all colds from the system and cures all coughs, croup, whooping cough, la grippe, bronchitis, etc. Sold at the City Pharmacy.

When you wish the finest flavored coffees and teas, remember that W. J. Nettle keeps only the best.

A Jackson Girl Wedded.

The following account taken from the Sacramento Union, will be read with interest by the many acquaintances of the bride, who was a resident of Jackson for a number of years, and who is a sister of Mrs. W. E. Kent, of this town:

Dr. Wallace H. Renwick, son of Mr. and Mrs. R. A. Renwick of this city, and Miss Kathryn Keeney, daughter of Mr. and Mrs. L. G. Keeney, were married Thursday noon at the home of the bride's parents in Woodbridge. Relatives and a few intimate friends witnessed the ceremony, which was performed by the Rev. Mr. Fisher. The whole house was a bower of ferns, brightened by streamers of pink and white ribbon.

The bride, a handsome demi-blonde, wore an artistic white gown of Hawaiian peno cloth, trimmed with lace, and carried a bouquet of bride roses. She was attended by her niece, Miss Vivian Kent, who wore a fetching frock of pink, and carried pink roses. The groom was supported by Walter Jahant. Miss Ella Jahant played the wedding march, and also rendered "O promise me." during the ceremony.

The wedding breakfast was served on the lawn, under the spreading trees, which were gay with pink and white streamers and baskets of flowers. Many happy speeches were made about the board, and hearty congratulations offered to the bride and groom.

Mr. and Mrs. Renwick left in an automobile for Stockton but did not tell their friends how far their journey would extend. They are expected here this week, and after a few days with relatives will go down to San Diego for a week or more.

The groom is well and favorably known in town, and Mrs. Renwick will be welcomed by an enthusiastic group of friends, whom she has won on her visits here. She is a very charming young woman, and has but recently returned from a six months' visit to the Hawaiian Islands. Among the wedding guests were the following from this vicinity: Mr. and Mrs. R. A. Renwick, Mr. and Mrs. L. G. Brayton, Mr. and Mrs. J. J. Corell, Mrs. William Small, Sacramento; Miss Evalyn Kerr, Elk Grove; Mr. and Mrs. Walter Kent and family, Mrs. William Penny, Jackson; Dr. and Mrs. Latta and Mrs. Latta, Stockton.

Get the weak spots in your old harness patched at Pete Piccardo's. Pioneer Flour always has been and still is the best.

WE CURE MEN

Suffering from delicate diseases, such as physical and mental decay, Varicocele, Stricture, Piles, Blood Diseases, Prostatic Disease, Contracted Disorders, Loss of Vital Power, Kidney and Bladder Troubles, Lost Manhood, Mucus Brains, Etc. We have the most modern, rational and perfect method of treatment for the quick and permanent cure of all newly contracted, nervous and chronic disorders of men and guarantee a cure in every case undertaken on no charge. We are permanently located in Stockton.

Our Fees are Fair and Our Cures are Lasting.

WEAK MEN
When others fail, we cure. There is no better equipped medical institution anywhere, and the services we render afflicted men are as superior as our facilities are complete.

CONSULTATION FREE

ENTERED AT THE POSTOFFICE AT JACKSON AS
SECOND-CLASS MATTER.

R. WEBB — Editor and Manager

THIS PAPER is kept on file at E. C. DAKES' Advertising Agency, 121 Sanson St., San Francisco, California, where contracts for advertising can be made for it.

FRIDAY.....SEPTEMBER 29, 1905

THE INCORPORATION ISSUE.

In another column we publish an article on municipal corporations, which the citizens of Jackson will do well to ponder. The article is from the columns of a journal devoted exclusively to the cause of incorporated cities. It cannot, therefore, be said that it is influenced in its advice by self interest, or any motive other than a general desire to aid in the incorporation of California towns. The disinterestedness of the advice given is beyond question, and it is equally clear that the writer, having made a special study of municipalities, is thoroughly posted on the topics of which he writes. As the Ledger has pointed out, the utmost care should be exercised in the matter of fixing the boundaries of the proposed city. It plainly says that over expansion in this respect is a fatal mistake. To confine the boundaries to the town proper, is the path of wisdom, to take in a lot of farming land, or mining land for that matter, is folly.

The Ledger sincerely desires the incorporation of Jackson. The time is ripe to assume the responsibilities of self government. But in the discharge of our duty as a journalist we cannot advocate the incorporation of the town along the lines set forth in the petition. The people will do well to take time to consider this matter in all its bearings before committing themselves irrevocably. To start right is all important. If we start on a wrong foundation, we shall be wrong all through. The blunder will cleave to us all through our municipal career. Better have an error rectified now, even though it does cause a little delay, than push blindly on regardless of consequences. We believe the citizens of Jackson are sufficiently broad-minded to seek incorporation for their own special benefit, and to bear the burden of government on their own shoulders. They do not want—or at least they ought not to want—those who cannot hope to receive any benefit from incorporation to share in the financial burden. On the other hand, the territory includes within the proposed boundaries, from six to eight miles of roads, outside of streets naturally falling within the town limits. Now just fancy a city government organized for the purpose of improving the town, being saddled with an incubus of such a mileage of roadway to look after. The revenue derived from the mines and farming property included by these inflationist would be a mere bagatelle in the cost of maintaining such thoroughfares. Take the Zelle mine for instance. Suppose it is assessed for \$30,000. The taxes from this source for the support of the city government, at the maximum limit of 75 cents on the \$100, would amount to \$225, the limit of which for road purposes would be 50 cents on the \$100, or \$150. What would that amount to—multiplied even by five or six times—in the care and maintenance of such highways. Who then would have to pay for the bulk of this work? Why the property holders in the district where the wealth is concentrated. In other words, the owners and tradesmen of the business part of the city would be called upon to pungle up for the work. The inflation proposition works a hardship on both sides. It is utterly contrary to the legal axiom: that he who receives the benefit should bear the burden of expense. That is a just rule. But in this case, the farmers and mine owners would have to contribute for lighting, and sprinkling, road work, sewerage, etc. of the town proper, and could not hope for any improvements along these lines for their property. On the other hand, the town residents would be compelled to put up the bulk of the money to repair the outside roads and bridges, which would far more than offset the taxes derived from the outskirts territory. The miner and farmer would be hampered and annoyed by ordinances and regulations applicable to essentially city property, and never intended under the law to include any other kind of property. Neither side would be satisfied, and there would inevitably be perpetual jarring and contention between the two—the insiders and the outsiders.

We trust that steps will be taken, before the issue is pressed to a vote, to have the proposed city reduced to practical and sensible limits, and thereby hold out the promise of a benefit and not a curse to the residents of Jackson.

NOTICE.

The lone high school will open on Sept. 4, 1905, and it is expected that there will be a large attendance from Amador, Sutter Creek, and Jackson on account of the very liberal commutation tickets issued by the lone and Eastern Railroad Company to pupils and teachers. The company has issued monthly round trip tickets at the extremely low figure of \$10 per month from Amador, Sutter Creek, and Jackson, Aug. 25th.

To Cure a Cold in One Day.

THE FREE SCHOLARSHIPS.

The Ledger's voting contest continues lively. The two leading contestants have once more changed places again the past week, Lewis Love taking first place. The score now stands as follows:

Lewis Love, Jackson - 10,825 votes
Miss Mary Heath, Jackson 9725
Jas Pengelly, Jr. Sutter Crk, 5650
William Bryant, Ione - 3250
Francis Grayne, Volcano 250
Elmer Dicken, Jackson - 250

The residents of the Union school district at Angels are worked up over the decision of the district attorney of Calaveras county to the effect that they will be required to pay a double tax for high school purposes—one for the county high school and the other for the support of their local high school.

When the county high school was located at San Andreas the citizens of Angels and vicinity were chagrined, and voted a union district high school, located at Altaville, under the impression that they would be exempt from the county high school tax. But in this they have been disappointed. The maintenance of the county high school involves all the taxable property of the county, no matter how many district high schools may be established.

The anti-trading stamp law passed by the last legislature has been declared unconstitutional by the courts. The law was a stupid attempt to interfere with business, and was evidently prompted by small tradesmen who were jealous of the success of their more enterprising rivals. Trades-people can now resume the coupon business at their pleasure.

Communication.

The rate of taxation for the Union High School district is 47 cents on the hundred dollars on all property in said high school district. As the business of the high school is now conducted, it makes the residents of the union high school district unwilling philanthropists because the trustees who are supposed to understand the law governing such high schools have been misinformed concerning their authority or right to charge tuition for all pupils who attend the high school from districts not included within the boundaries of the union high school district.

As a result pupils are attending from Jackson, Sutter Creek, Amador and elsewhere free of charge, increasing the expense of maintaining the school and contributing nothing toward meeting that expense.

Any one who has read the constitution of the United States, which is the fundamental law of the land, must know that a law would be unconstitutional if it did not provide for a just distribution of the burden of taxation for the maintenance of an institution whose benefits all alike are permitted to share.

Now the fact of the matter is, that the trustees can and should charge all non-resident pupils tuition.

Some may ask how much would such tuition fee amount to? It would amount to about three fourths of the cost per pupil per month that it costs to maintain the high school.

It is to be hoped that the trustees will meet and fix the rate of tuition. Surely no self-respecting young person would wish to remain an unwilling expense to the taxpayers of the union high school district. From such facts, as are now in my possession it would seem that the tuition fee would be about three dollars a month.

Mrs. R. E. Horton.

The Badaracca Case.

The preliminary hearing in the case of Antone Badaracca, charged with the murder of John Pendola near Kirkwoods, in Alpine county, was held in Markleville on Saturday, September 16. The defendant's counsel was an attorney named Brockless, from Gardnerville, Nev. Only three witnesses were examined for the prosecution, one of them being the boy Roy Ruffner, the eye witness to the shooting. Sheriff Glover testified to an attempt on the part of the defendant to bribe officers. On the way from Kirkwood's to Markleville, after the coroner's inquest, in company with the sheriff and district attorney, the defendant is reported to have told the district attorney that the matter could be fixed, and intimated that \$1000 would be paid in that behalf, raising the amount to \$2000, on being drawn out. He was held to answer, without bonds.

The total number of persons eligible for jury duty in Alpine county, is 55. Twenty five names are drawn on the grand jury. It is intended to call the grand jury next month, and when that body is discharged, these men will be eligible as trial jurors, giving the full number of 55 out of which to get a jury in the Badaracca case. It is believed that a jury can be secured without difficulty out of the list.

The defendant it is said, when a copy of the complaint was presented to him in court, refused to take it. It is understood that the case will be pressed to trial as speedily as possible, probably in the early part of November. The intention is to take the witnesses from this county over the mountains by wagon, saving both expense and time in that way.

Bad Indeed.

Losing flesh is indeed a bad sign. Take Scott's Emulsion for it. For weak indigestion, for defective nourishment, for consumption, take Scott's Emulsion. It restores flesh because it strikes to the cause of the loss.

Nothing will please an invalid as well as a package of those fancy cakes from Nettles' Mkt.

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol cures indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol Dyspepsia Cure does not only cure indigestion and dyspepsia, but this famous remedy cures all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.

Mr. S. S. Ball, of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

Kodol Digests What You Eat.

Bottles only. \$1.00 Size holding 2½ times the trial size, which sells for 50 cents.

AMADOR.

The funeral of the late Mrs. Cook, a former resident of Amador, took place here last Sunday, and was largely attended by many friends and relatives.

Much sympathy is felt here for Mr. E. A. Cook, who has been married some seven weeks and had to lose his wife after such a short term of married life. The deceased lady was a sister of Mrs. H. Verran at present residing in Amador. She leaves two children: E. A. Cook, who came up from Sacramento on Sunday returned again on Monday.

R. S. Bierce of Jackson, spent Tuesday in Amador on business.

H. Raphael, who has been spending a few days vacation with his father, left here for San Francisco on Monday.

Amador baseball team earned home a well deserved victory last Sunday after a hard contested game against the pick of Jackson. Our team is at last getting into form, and the next match, it is reported, will take place at Placerville on Sunday next, and the Amador boys are expecting another victory—Then a return game is spoken of by the Jackson team.

Jackson boys will certainly get it, and the result we trust will be the same as the previous game. Mr. Hossie, who acts as manager, keeps his team well at practice. Before long it is spoken the team will go to play other than county teams.

George Davis, an employee of J. S. Davis, the local blacksmith, met with a painful but not serious accident on Tuesday last. While shoeing an obstinate mule—possible the proverbial "Maud"—he received, unrequested, a kick on the hand, breaking one of his fingers. After a few minutes interview with Dr. Quinn, the local surgeon Mr. Davis, returned to his home declaring "he would get even on Maud."

Sheriff Norman spent Wednesday in Amador on official business.

T. W. Pierce, agent of the I. and E. R. Co., visited Amador on business last Monday. Grenfell.

Baseball

The game of baseball, played last Sunday on the local diamond between the Jackson and Amador City teams, was the most exciting event of that kind witnessed this season. It was for a purse of \$75, and this fact imparted additional interest to the outcome. The game was watched with much interest by a large number of spectators, who greeted with cheer every point scored by their respective favorites. Amador City managed to carry off the honors, and the money with the close score of 7 to 6.

The score was as follows:

AMADOR	AB	R	H	SB	PO	A	E
White, C.	5	0	1	1	11	2	0
H. Benson, 2b	5	1	3	3	1	1	0

SUPERIOR COURT.

JOSE, R. C. JUST, JUDGE.

Jose Gulen Mining Co. vs Starbird Consolidated Gold Mining Co. Defendant of defendant entered. Case tried and submitted.

Matter of Peter Haller, on habeas corpus—Case heard, and submitted. People vs Samuel E. Swearingen—Sentence to life imprisonment in Folsom.

People vs Clarence Murphy—Defendant's counsel files demurrer, which was submitted without argument, and overruled. Defendant pleaded not guilty. Set for trial Oct. 30.

People vs Thomas W. Freeman. Set for trial, (Ryder case) October 23; King case to follow.

Estate of J. W. Shear—J. E. Shear appointed administrator, on filing bonds of \$200.

Guardianship of Negreka and Peter Dragonovich. Final account approved and order for distribution made.

Estate of L. Gazerra—Sale of real estate confirmed.

New Cases.

W. D. Dufrene vs Michael Fitzgerald. Suit to recover \$356 on a promissory note dated Sept. 20, 1901, which was theretofore assigned by the estate of P. A. Clute to plaintiff.

Phoebe Gable vs Wm. Gable—Suit for divorce on the ground of desertion and failure to provide. Parties were married in Amador county in June, 1894. One child was the issue of marriage, a son now 20 years of age, whose custody is asked for by plaintiff.

Chris Sorenson vs B. Levaggi, H. W. Squires and Antone Levaggi—Suit for \$10,000 damages for injuries sustained by plaintiff while employed by defendants as a miner in the Galena mine, West Point, Calaveras county. Complainant alleges that on the 12th of May, he was working in the shaft, 80 feet deep, and engaged in sinking to a greater depth. The rock was hoisted to the surface by means of a bucket. The shaft is a vertical one. On the day stated a bucket of material was in process of being hoisted to the surface, and when near the top the hook to which the bucket was attached straightened out, precipitating the bucket and its contents to the bottom. It was impossible for plaintiff to get out of the way, and it fell upon him mangleing him and disabling him for life. His right forearm was severed from his body, his thigh was broken, and his head injured. He has not and never will, so the physician tells him, recover so as to be able to do manual labor. He is informed that he will have to undergo the amputation of the remaining portion of his forearm in order to save his life. The accident, the complaint says, was wholly due to the carelessness of defendants in failing to provide proper machinery and a skilled engineer. That the machinery and equipment, unknown at the time to plaintiff, were inefficient and dangerous. It is claimed that the rope ran off the reel, resulting in the bucket being precipitated down the shaft. Plaintiff asks for \$10,000 damages and costs of suit. W. J. McGee is attorney for plaintiff.

Ledger & Chicago Inter-Ocean, \$2.50

MARRIED.

CASSELLS-MUGFORD—In Sacramento, September 20, 1905, by Rev. M. Hoskinson, Louis C. Cassells to Miss Helen Mugford, both formerly of Jackson.

GAZZERO-DIVECHO—In Drytown, September 9, 1905, by Rev. Thomas Dermody, Francesco Gazzino to Evira Divecho, both of Drytown.

In San Francisco, September 20, E. R. Scott of Jamestown, brother of R. W. Scott, of the Amador Record, to Miss Lena Dolling of Angels Camp.

DIED.

COOK—In Sacramento, September 22, 1905, Augusta Caroline, wife of Edward Cook, of Walnut Grove, daughter of Mr. and Mrs. Bennetts, of Amador City. A native of Amador county, aged 36 years.

MASON—In the county hospital, September 7, 1905; James Mason, a native of California, aged 44 years.

JEFFRIES—In the county hospital, September 19, 1905; Lincoln Jeffries, a native of Kentucky, aged 70 years.

M. A. 2331.

MINING APPLICATION NO. 2331, UNITED STATES LAND Office, Sacramento, Calif., September 12, 1905. Notice hereby is given that Margaret C. Quinn, et al., of Jackson, Amador County, California, have made application for patent to the Julia Quartz Mine, Survey No. 4895, in Sec. 10, T. 2 S., R. 11 E., E. 1/4, in Jackson Mining District, Amador County, California; Beginning at Cor. No. 1, whence the quarter section corner of W. boundary of S. 10, T. 2 S., R. 11 E., bears S. 75 deg. 45 min. W. 125 feet dist.; thence S. 6 deg. 23 min. W. 150 feet to cor. No. 2; thence S. 6 deg. 23 min. W. 150 feet to cor. No. 3; thence N. 6 deg. 10 min. E. 150 feet to cor. No. 4; thence W. 60 ft. to cor. No. 1, the place of beginning, containing 35.5 acres. The location is recorded in the State of California, in the 20th day of Aug. 1905, records of Jackson Mining District, in Vol. 10, page 618, records of Amador County. This claim is bounded on the N. by Meacham Co. Q. M., on the W. by Mammoth Gold and Silver Q. M., on the S. and E. by vacant land.

JOHN F. ARMSTRONG, Registrar.

First publication September 15, 1905.

Notice of Assessment.

HORN MINING COMPANY.

Location of principal place of business, Jackson, California.

Location of works, Amador County, California.

NOTICE IS HEREBY GIVEN THAT AT a meeting of the Board of Directors held on the 6th day of September, 1905, an assessment of \$2.00 per share, for the year ending September 30, 1905, was levied on all shares of the Horn Mining Company, which are owned by the shareholders, and the same will be paid on or before the 10th day of October, 1905, to the Secretary, at the office of the Company, 100 California St., Room 20, San Francisco, California.

Any stock upon which this assessment shall remain unpaid on the 25th day of October, 1905, will be delinquent, and advertised for sale at public auction, and the proceeds of sale will be used to pay the delinquent assessment and expenses of sale.

By order of Board of Directors.

J. C. L. DUBREY, Secretary.

Office, Room 20, No. 100, California Street, San Francisco, California. sep15-5t

Location of principal place of business, Jackson, Amador county, California.

Location of works, Railroad Flat Mining District, Calaveras county, California.

NOTICE—THERE IS DELINQUENT UPON the following described stock, on account of assessment (No. 6) levied on the 3rd day of September, 1905, at the hour of two (2:00) o'clock p. m. of said day, to pay the delinquent assessment thereon, together with the costs of advertising and the expenses of sale.

JAS JAY WRIGHT, Secretary.

Office in the Marcella Building, on Summit Street, Jackson, Amador County, California. sep 14-4

Notice to Creditors.

ALL Persons indebted to the City Pharmacy at Jackson, will please call and settle their accounts forthwith, as the business has been removed to P.

TEMPERATURE AND RAINFALL

This table gives the highest and lowest temperature in Jackson for each day, together with the rainfall, as recorded by self-registering instruments kept at the Ledger office:

LOCAL NEWS

All kinds of harness from \$15 up at Pete Picardo's.

Ledger and Chicago Week'y Inter-ocean, both papers for one year, \$2.50 in advance.

Mrs. N. Laktiviere accompanied her sister, Mrs. Cortmarsh, to Jackson last Sunday and returned the next day. Mrs. Cortmarsh will visit relatives in Jackson several weeks before her return home to Bullfrog, Nevada.—Calaveras Citizen.

Ranlett postoffice will be discontinued on the first of October.

The application of the new postoffice at Martells is hanging fire. The petition was sent on some time ago and blanks were returned to be filled in with certain information required by the department in all such cases. Among the terms covered was one requiring that the mail would be delivered at the postoffice without extra charge. This the railroad authorities would not sign. Extra pay would be required to deliver the mail at the proposed office. The matter is in abeyance.

Mrs. George Huberty, and daughter Lucille, returned from San Francisco Sunday evening.

Mrs. James Morrow of Amador City, who has been visiting her sister Mrs. Smith of Jackson, returned to her home on Monday.

H. C. Lester manager of the Red-luck Bros' store, left Sunday for a week's visit to San Francisco.

W. R. Jacobs the attorney for Clarence Murphy, traveled in a buggy from Stockton to Jackson last Sunday in company with the wife and defendant. He was not out for wild game, nevertheless he found wild animals in his path. About five miles from Jackson they came across an animal which was taken for a skunk. Jacobs had no gun, so he took up a rock and hurled it with force, striking the animal in the head, and killing it instantly. It was a large badger, and weighed about 50 pounds.

J. F. Wilson, Dentist. Hours 9 a.m. to 5 p. m. Phone Main 404; residence phone No. 523, Jackson, Cal.

Dan Meiss, a young man from Amador county who was lately employed in the Infirmary, is in the Sisters' hospital in Sacramento recovering from a fractured skull which he received a short time ago at the hands of a fellow workman in the stable named Luke McCoy. During a quarrel the struck latter Meiss on the head with the iron handle of a large stable broom, knocking him senseless. Meiss was taken to the hospital in Sacramento the first week of September.—Placerville Nugget.

Children's knit drawers union suits for 25 cents at the Jackson Shoe Store.

Rev. F. A. Morrow and Mrs. Morrow returned Saturday evening after several weeks visit in San Francisco and Pacific Grove.

Mrs. William Penny Jr., returned home Friday evening from Wood-bridge, where she went to attend the wedding of her cousin, Miss Kate Keeney.

Mrs. Willford Dennis was a visitor in Jackson Sunday.

Little Ruby Scatena, who has been ill with typhoid fever, is now able to be around the house.

The dance given by the Jackson athletic club was well attended, people being present from all the various town, the Owl orchestra furnished the music.

Mr. Thelle left on Sunday's train for San Francisco, where he intends making his future home with his daughter.

Dr. Osborne, the well known optician, will be at Spagnoli's drug store, on October 9th, one day only.

If you have any trouble with your eyes, better call on C. C. Jensen, at Langhorst's jewelry store. Mr. Jensen is too well known that recommendations are unnecessary.

Dr. C. C. Jensen, the well known optician of Chico, who has been making professional visits to Jackson for a number of years, is in town, and will be found at Langhorst's jewelry store. He will remain only until the 3rd of October.

Next Sunday Rev. C. E. Winning of the Methodist church will preach at 11 a. m. and 7.30 p. m. Morning theme "The strength of a christian." Evening theme "A plea for the children." Sabbath School at 2 p. m. Classmeeting 10 a. m.

Headaches from any cause yield promptly to Rubner's Headache Powders. Quick and sure relief guaranteed.

The patrons of the Jackson grammar school desiring to enter their children in the primary or 1st grade will please have them enter by the 2nd of Oct. otherwise to wait until the 1st of the year 1906, as the different divisions of the grades will be organized on those dates as it is very important for a beginner to start with his grade.

Don't forget Saturday evening, you can hear all the latest songs at our store, concert starts at 7 o'clock sharp. Jackson Shoe Store.

Additional Locals.

Everything for your toilet can be procured to best advantage at the City Pharmacy, complete stocks, low prices.

The Jackson free library is now fairly started. A number of borrowers have taken out books the past week. The books are here to be loaned out free of charge. All that is needed is to make application to the secretary in the Ledger office, where the library is at present located, between the hours of 7 and 8 o'clock p. m. on any Monday, Wednesday or Saturday.

For fine stationery, go to the City Pharmacy.

The pain of sunburn stops as soon as you apply Rubner's Cold Cream. The wedding of Louis E. Cassells, formerly clerk of the National hotel, and Miss Helen Muford, also formerly employed at the National hotel of Jackson, was quietly celebrated in Sacramento last week. Mr. and Mrs. Forester, sister and brother of the bride, witnessed the ceremony. The pair will make their home in Sacramento.

Percy Peek of Mokelumne Hill visited his grandparents, Mr. and Mrs. W. P. Peek of Jackson, a few days this week.

Mr. and Mrs. C. Peek of Mokelumne Hill, after visiting relatives in Jackson, left for San Francisco Monday morning, for an extended visit. Mr. Peek is a brother of W. P. Peek.

Miss Rose Ratto, of the National Hotel is quiet sick with a very sore throat.

Miss Pearl E. Hicks left last Friday for Amador City, where she intends to remain.

Miss Mand Gatton left for her home in Amador on Sunday.

Miss Gass returned Sunday from San Francisco, where she went to purchase her millinery for the coming season.

Henry Weil left for San Francisco, Monday morning.

Misses Nellie and Georgia Gritton and their cousin, Mrs. Curcoun visited Electra on Sunday.

Mrs. Fanny Bonnetty returned home last Sunday night after a visit of three weeks to Sacramento and San Francisco.

Dr. and Mrs. Phillips entertained a number of friends at their home on Wednesday evening.

Postmaster Duden has arranged to have four letter boxes placed around town; one at National hotel, one at Globe hotel; one near court house, and the other near the Water street bridge.

Lost—A gold pin, shape of a leaf, was lost between Plymouth and Drytown, last week. Finder will be rewarded by returning same to Miss Vannie McLaughlin, Drytown.

The Native Daughters are going to celebrate Flag day on the 10th of October, which is to be a public affair.

Will Schroeder, returned from San Francisco, Sunday evening, after a two week's visit.

Ed. Kay, deputy sheriff, won the suit at the Jackson Shoe Store, Wednesday night.

John Burke, returned home Friday evening from San Francisco.

Dr. J. F. Wilson and wife will leave Sunday next for a week's visit to Santa Cruz. They will return the following Sunday.

The cattlemen are getting out of the mountains range with all possible speed. Nearly all are out, and Kirkwood's cattle will be out early next week. There never has been so dry a summer as the present one. Water has given out on several of the ranges, and the hills are dry and bare of feed. The cattlemen had to get out with their hands earlier this season because of these conditions. The cattle have not done so well as in former years.

Give us daily some good bread. Pioneer flour makes the best.

Fresh pickled olives of the season just received; 65c per gallon; Nettle's market.

Injured by a Blast.

Word was received Monday morning that five men had been badly injured by a belated blast in the Kennedy mine. The report was fortunately proved an exaggeration as far as the number of persons injured was concerned, and the serious nature of the injuries. It seems two men, both Italians, were working in the 2100 drift of the mine. They had exploded a number of holes, and started to return to the face, when another blast exploded, pieces of rock striking them on the face, cutting them considerably, but inflicting no dangerous wounds. The men hurt are Delama and B. Navoni.

FROELICH RANCH.

Mrs. Kremmel and children, returned from the mountains last week. C. E. Froelich, has gone to the mountains to help drive out the stock.

Miss C. Rickert, visited at the Froelich home last Saturday. She returns to San Francisco this week.

Mr. and Mrs. D. Robinson have moved to Jackson to reside in the future, in a cosy cottage on the Hamilton tract.

Mrs. Lucinda Froelich is on the sick list.

Miss Dorothy Kremmel, has been confined to the house with a very sore knee, but under the care of Dr. Gali, is now able to be around.

Incorporation Meeting.

The adjourned meeting on the matter of incorporation of Jackson was held in the court room Tuesday evening, the supervisor's room being too small to hold the crowd. Interest in the meeting was worked up over the selection of clerk, and it was freely circulated on the streets that an effort would be made to reopen the nomination of Jas. J. Wright for that office, on some flimsy grounds. The candidates voted for at the previous meeting were J. J. Wright, A. B. Caminetti, and Geo. Kirkwood. Wright received 14 votes, Caminetti, 12 and Kirkwood 5. It was announced at the outset that the candidate receiving the highest number of votes would be considered the nominee. The outcome was not satisfactory to some and the friends of both parties mustered in force, in expectation that some move would be made to unseat Wright, and do the balloting over again for that particular office. After reading the minutes the committee appointed to interview the candidates and ascertain if they would accept and qualify if elected, reported that all who had been seen signified their willingness to accept.

William Tam said there appeared to be some dissatisfaction over the selection of one candidate on the ticket, and he therefore moved that the matter of nomination for the office of clerk be reopened. The chairman said that the nomination for clerk had been made as regular and as much in accordance with the rule adopted as the other officers. Only two of the five trustees received a majority vote. R. Webb said he was surprised at the effort to undo what had been done at the previous meeting, and moved as an amendment to lay the whole matter on the table. The amendment was put and declared carried. It was moved that a committee be appointed to represent the incorporation question before the supervisors at the next meeting.

R. Webb thought it was important that the matter should be properly laid before the supervisors, and especially that the board be requested to defer action until reasonable time be given to thoroughly consider the question of boundaries. He said he could not advocate or vote for incorporation along the lines proposed. He was very strongly in favor of incorporation, if the town limits were reasonably confined to the town proper. But he believed by taking such vast area of farming land, and embracing miles of county road, the incorporation if carried, would prove a curse rather than a blessing. The correct rule was those who receive the benefit should pay the cost. C. P. Vicini was opposed to delay in the election. He was in favor of taking in all the territory as proposed, and indulged in remarks of a personal nature, intimating that the restriction of the limits was a move in favor of the mine owners. He wanted the millionaire to contribute to the support of the town, as well as the small property holder. The lines were all right as they stood.

The chairman E. C. Rust appointed the committee to attend to the matter before the board as follows: Dr. E. E. Endicott, C. P. Vicini and J. W. Caldwell.

Violently Insane.

Thomas O'Brien was brought up from Lone last Friday to be examined on a charge of insanity. He was violently crazy, and four men had to accompany him to the county seat, to guard against violence. That night he was taken to the hospital, but he was so dangerous and violent, that they were unable to manage him with the force there, so he was lodged in jail. On Monday he was examined by medical experts. He was taken before the court with his hands strapped together, as a precautionary measure. The present attack developed Sept. 20, but he had been previously committed for insanity. He is a native of Ireland, 43 years of age. The exciting causes of his mental unbalancing are alleged as indulgence in liquor and exposure to the sun. He was committed to Stockton asylum, and taken to that institution by deputy Kay Tuesday.

Best For Children.

Mothers, be careful of the health of your children. Look out for Coughs, Colds, Croup and Whooping Cough. Stop them in time—One Minute Cough Cure is the best remedy. Harmless and pleasant. Contains no opiates. Sold at the City Pharmacy.

PROPERTY DEEDED TO STATE.

On Account of Delinquent Taxes.

We publish herewith a further list of property in Amador county which has this year been deeded to the state of California on account of delinquent taxes, together with the amount of taxes due on each parcel at time of sale. The sale to the state was made five years ago, after the lapse of which time the tax-collector, under the law, is required to make out a deed to the state, and have the same recorded. This list completes the list of property deeded to the state for the current year, but it is by no means a total of all property standing on the records as belonging to the state on account of delinquent taxes. All parties having an interest in any property hereby listed will do well to look into the matter, and stricken out the title. The original owners can redeem the property by paying the taxes and all costs and penalties, but the costs continue to pile up the longer the redemption is deferred. Besides this any person is at liberty to have the property advertised and sold at public auction, and after the property has passed from the state, the right of redemption ceases.

TRIALS OF A GEOLOGIST.

His Precious Specimens Surreptitiously Disposed Of by a Conscienceless Carrier.

Prof. W. C. Hayes, of the geological survey, was talking in Washington about the trials of geologists, states the Buffalo Enquirer.

"Did you ever hear of the geologist in New Hampshire?" he asked. "Well, there was a geologist who spent a long hot summer day in Croydon gathering specimens of the very odd New Hampshire rock formation to be found there, and late in the afternoon he hired a boy to carry the heavy bag back to Newport for him. The boy exhibited to a friend that night a half-dollar and the friend said enviously: "Where did you get that?" "I made it," was the answer. "How did you make it?" "You know that there man that was working all day with a little hammer hereabouts, chipping off pieces of rock and putting them into a leather bag?"

"Yes."

"Well, he asked me to carry his bag for him to the Newport hotel, and he gave me 50 cents for the job."

"Well, it was worth it. Must have been pretty heavy, carryin' all them rocks four miles."

"Do you think I carried them rocks all the way?" he said. "No, sir, I emptied the bag before startin', and just filled it outside the hotel."

THE SOUTHERN BARBECUE.

Preparation of the Feast as Described by One Who Has Had Experience.

The way we fix for a barbecue is to begin to get ready the day before. The meat is roasted all night, says a writer in Outing. We have plenty of different kinds—shote, calf, kid and goat—and we roast 'em whole. A French is dug and oak bark coals put in. Then sticks are laid across for the shote and other creatures to rest on. Some white man has this in charge, but the niggers keep the fires going and do the basting and the rough work. The next day everybody comes. There's a detail to do the carving, and we all step up and get what we want and go and set down by some tree to eat it. Of course, there's potatoes and cornmeal, light-bread and pickles and cake, and there's ice cream and fruit. Pure, genuine coffee that the old ladies make in abundance. Then there's a fried chicken if anyone is fastidious enough to want it, and some enterprising fellow is likely to bring a dozen bottles of beer and invite his special friends out to his buggy to drink it. But the best thing to my thinkin' is the shote. A man hasn't got any part in the resurrection until he's eaten barbecued shote.

Reversing Speech.

A very curious phonographic instrument, invented by Poulsen, and capable of reversing the sounds of a word or a sentence, was exhibited at the Philadelphia meeting of the American association. A steel piano wire, carried on two spools, passes between the poles of a small electromagnet so connected with a telephone transmitter that spoken words are magnetically recorded on the moving wire and reproduced in a receiving instrument. When the motion of the wire is direct, the words are heard as in ordinary conversation, but if the motion is reversed, the sounds come to the ear in reverse order, like words spelled backward. To represent the order in which the reversed sounds strike the ear, however, not only must the order of the letters composing a word be reversed, but each letter must itself be reversed from right to left, as when reflected from a mirror.—Youth's Companion.

Nothing will please an invalid as well as a package of those fancy cakes from Nettles' Mkt.

LIGHTS IN LITERATURE.

The first volume of the unpublished writings of the late Theodore Monismen has been prepared for publication by Prof. Otto Hirschfeld, the literary executor of the deceased historian.

Rider Haggard is best known in America as a writer of startling romances, but in his own country he is recognized as an earnest student of the great problem of the poor. For years the author has been laboring for the development of the agricultural side of English life as a means of relieving the congested conditions of large cities.

Anthony Hope, the British novelist and playwright, was educated for the law, but says himself in his droll way that he failed to make a living at his profession and had to turn to writing in self-defense. He declares that in all his life of 42 years there has not come one incident that is worth telling—he has just lived "the average life of an English gentleman."

It will probably seem strange to some that John Hay in his later life was inclined to be rather ashamed of "Little Breeches" and "Jim Bludso," the two of his poems that have always been the most widely quoted. Similarly James Russell Lowell was rather ashamed in his declining years of the "Bigelow Papers," which many regard as his most original and effective work, and Minister Phelps never liked to be quoted as the author of that immortal poem about Essex Junction.

William Dean Howells has some encouraging words to say to young aspirants for literary honors. "There is room for a good story of any kind," he said, recently. "Although an editor gives his judgment by what his readers have liked before, often rejecting something they would like much better, no good thing in a story ever remains unpublished. Some one will read it, feel its truth and print it if it is true." But he goes on with a word of advice. "I do not believe anyone can write a novel, with rare exceptions, until he has lived at least 35 years in experience of the world."

ODDITIES OF INVENTION.

Prof. Balardi, of Turin, has succeeded in perfecting his invention of photographing the eye and advocates its practical use for diagnosis of diseases of that organ.

A French engineer named Otto has invented an apparatus for purifying drinking water at home; its capacity is 60 gallons an hour, and its cost about the same as that of an electric incandescent light. Ozone is generated, which kills all germs in the water.

In some parts of the west where irrigation is much depended upon, a "current motor" is in use which, by an ingenious use of levers and iron blades, makes the water of flowing streams pump itself. The pressure of the current causes the blade to swing backward and forward, and the force thus exerted is communicated to machinery which runs a pump.

The recent classification at the British patent office shows that cooking is the popular subject of invention, having been the subject of 3,575 British patents in 48 years, or an average of 73 a year. Umbrellas brought out 1,457 inventions, and hats 1,411. Invention tends to run in grooves, 1894 and 1897 reflecting the enormous development in cycles, while motor vehicle inventions have doubled since 1900.

CONCERNING THE CLERGY.

Rev. Joseph W. Cross, the oldest living alumnus of Harvard college and the Andover theological seminary celebrated recently his ninety-seventh birthday.

At the late commencement of Ohio Wesleyan university the degree of D. D. was conferred on Rev. Byrrol Palmer, of the East Ohio conference author of "God's White Throne."

BIBLICAL BALM.

If you have the blues, read the twenty-seventh Psalm.
If people seem unkind, read the fifteenth chapter of John.
If you are all out of sorts, read the twelfth chapter of Hebrews.
If you find the world growing small and yourself great, read the nineteenth Psalm.
If you are losing confidence in men, read the thirteenth chapter of First Corinthians.
If you are discouraged about your work, read the one hundred and twenty-sixth Psalm.
If you cannot have your own way in everything, keep silent and read the third chapter of James.

WHAT WOMAN WANTS.

To love.
To be loved.
To be told so sometimes.
To have something to do.
To be dealt with sincerely.
To be praised once in awhile.
To have her judgment respected.
To be sympathetically understood.

AMADOR LEDGER & WEEKLY CHICAGO INTER-OCEAN

\$2.50 PER YEAR

Many people are afraid of ghosts. Few people are afraid of germs. Yet the ghost is a fancy and the germ is a fact. If the germ could be magnified to a size equal to the germs, it would appear more terrible than any fire-breathing dragon. Germs can't be avoided. They are in the air we breathe, the water we drink.

The germ can only prosper when the conditions of the system give it free scope to establish itself and develop. When there is a deficiency of vital force, languor, restlessness, a hollow cheek, a hollow eye, when the appetite is poor and the sleep is broken, it is time to guard against the germ. You can fortify the body against all germs by the use of Dr. Pierce's Golden Medical Discovery. It increases the vital power, cleanses the system of clogging impurities, enriches the blood, puts the stomach and organs of digestion and nutrition in working condition, so that the germ finds no weak or tainted spot in which to breed. "Golden Medical Discovery" contains no alcohol, whisky or other intoxicant.

"Your 'Golden Medical Discovery' is a sick man's friend," writes Geo. N. Turner, Esq., (Ex. Financial Secretary International Brotherhood of Transients), 328 California Street, Denver, Colo. "I put new life into my veins and increased vitality until I could once more enjoy life and attend to my business. Eight bottles affected a complete cure and gladly do I recommend it."

Dr. Pierce's Pills—one or two a day will regulate and cleanse and invigorate a foul, bad stomach, torpid liver, or sluggish bowels.

RECENTLY RELATED.

In a recent article on Americans an English writer gives the following as a characteristic American after-dinner story, its subject being a politician in bathing: "All at once a shark, a mackerel, was coming the other way, and swam up squarely in front of him. They eyed each other for a moment and then the shark—blushed and sped away."

Locker Sampson, whose name is inseparably connected with the Rowfant library, now awaiting some such customer on the shelves of a New York book house, once complained to Bedford, the famous bookbinder, that one of his recently bound treasures "cooked;" that is to say, opened of its own accord. Bedford, scrutinizing first the book and then the owner, said with great severity: "You've been reading it."

An Englishman in Canada writes home in considerable excitement as follows: "The majority of Canadians never read an English paper of any kind whatever; all their literature is American. All the booksellers' shops are filled with American books, American reviews, American papers. And with what result? There can be only one result—Canadians will think 'Americanity.'"

Gen. Miles has a story of a corporal in a regiment under his command in the old Indian fighting days. This corporal was much chaffed by his comrades for his oft-repeated expressions of belief in "fatality" and "destiny." One day it appears that the corporal, while on duty, was preparing to take a little horseback exercise and recreation. A private observed that the corporal took care to attach a brace of pistols to his saddle. "Hello!" shouted the private to the corporal, "what are you taking the guns for? They won't save you if your time has come." "True for you," grimly responded the corporal, "but I may happen to meet an Apache whose last day has come."

OLD-WORLD ODDITIES.

A new and unweelcome visitor has been recognized in England. He is the Surinam cockroach, and is destructive to greenhouse plants. The insects are believed to have been introduced in a consignment of orchids.

The town of Thurso, Scotland, comes to the front with a family record which will not be beaten easily. John Gibson, 87 years old, still follows his duties as superintendent of some flagrant quarries. Among the workmen he has seven sons, six sons-in-law, 29 grandsons, four grandsons-in-law and two great-grandsons. Forty-nine members of one family, all connected with the same trade, employed in the same works, and living in the same district, is something decidedly out of the common.

Baron Rothschild, head of the French branch of the family, recently received a curious legacy. This was the fortune of an ancient beggar named Abraham Elder, who died in a garret at Nice, and was found to possess 1,250,000 francs. He bequeathed it to the other millionaire, on the plea that "money must seek money." Baron Rothschild was not of the opinion, in this case at any rate, and he proceeded to hunt up the lamented Elder's relations, three of whom were found at Odessa and a fourth at Brooklyn. The legate divided the million and a quarter among them.

An Edinburgh minister lately rolled 1,000 feet down the steep of Ben Nevis, and lives to tell the tale. Admiral Sir Novell Salmon was clean shot through at Lucknow, and returned as dead, but came up smiling soon afterward. Similar was Lord Wolsey's experience in the Crimea, but though pretty well riddled with shot and shell and deprived of the sight of an eye, he was able soon to enjoy a laugh over his own obituary.

A large ago there was a girl up on trial in a London police court who had twice attempted to commit suicide, but two trains had passed over her and left her unscathed.

Your money back if not satisfied after trying "Alli-Tone," Sole agent, City Pharmacy.

Ayer's Pills

Want your moustache or beard a beautiful brown or rich black? Use

BUCKINGHAM'S DYE

LEDER VOTING CONTEST

—FOR—

STOCKTON BUSINESS COLLEGE

There are deserving and ambitious young men and women who desire to take a commercial business course in some reputable educational institution such as the

STOCKTON BUSINESS COLLEGE

The cost of such a course sometimes stands in the way. The Ledger has made arrangements to furnish free two scholarships in the following manner:

To the candidate receiving the highest number of votes will be given scholarship No. 171, which entitles the holder to instruction in any course for a term not to exceed six months, together with the sum of \$100 in cash for the expense of board lodging, etc., the total value of which is \$165.

To the candidate receiving the next highest vote certificate No. 172, will be awarded and this will entitle the holder to instruction in any course for a term not to exceed six months—value, \$65.00.
